

HUNGARIAN

HIGHER EDUCATION

2015

Hungarian Rectors Conference

Dear Reader,

Studying in Hungary is a unique experience, both from an academic and a professional point of view. The students who visit us develop their skills and knowledge and, at the same time, they have the opportunity to live in a country famous worldwide for its hospitality and its quality of education.

Hungary's higher education centres are dynamic and modern institutions, constantly adapting to the new challenges of the knowledge society and market needs, preparing its students for employment in a wide variety of fields. The universities are firmly committed to the task of converting their campuses into poles of attraction for international

talent. They are the centres of knowledge, culture, and the workshops of research. Besides preserving national traditions, Hungarian HEIs are part of the European Higher Education Area (EHEA), and develop and maintain relations with a large number of HEIs all over the world.

There are more than 60 higher education institutions located all over Hungary, offering students courses leading to degrees at the undergraduate, graduate, postgraduate and PhD level in countless specialisations taught in Hungarian, English, German or French.

Since this booklet can only give a brief description of the Hungarian system of higher education, I suggest you browse the website of the Hungarian Rectors' Conference (www.mrk.hu) for more details about our universities and colleges.

Last, but not least, I would like to encourage both students and instructors to choose Hungary, one of Central Europe's most dynamic, cosmopolitan countries for gaining knowledge, experience and friendships that will last for a lifetime.

Prof. Dr. József BÓDIS

President of the Hungarian Rectors' Conference

Presidency of the Hungarian Rector's Conference

Hungarian Rectors' Conference

The Hungarian Rectors' Conference (HRC) is a body to represent the whole Hungarian higher education institution system. Its members are the rectors of universities and colleges. The system of Hungarian higher education is very diverse as it comprises state, church, private and foundation higher education institutions which all are represented both in Hungary and abroad by HRC as a public corporation. The conditions of operation of HRC are provided by higher education institutions.

HRC is, by virtue of law, a public benefit organization with special legal status to perform also public duties set out in the Act on Higher Education in connection with its members and to the activities and duties of its members.

HRC is an independent public corporation entitled to represent higher education institutions and to protect their interests. HRC may deliver an opinion on any issue with relevance to the operation of the higher education system and may make proposals for decision-makers or those in charge of preparing decisions. The Statutes include the regulation of operation and a four-level system of organization of HRC. The supreme decision-making organization of HRC is the Plenary Session, comprising all of the rectors of the Hungarian higher education institutions (66). Universities and colleges are represented by a specific University Section and a College Section. Operative decision-making and implementation duties are fulfilled by the Presidency with ten members. Special professional issues are discussed by nineteen committees with powers of decision-preparation.

The bodies of HRC are supported by the Secretariat headed by the Secretary General.

The means available to HRC are specified by the Act on Higher Education and other legal regulations.

Interest representation can mainly be exercised by HRC's right of assent in most significant issues of the regulation of higher education.

Legal regulations provide also another means for interest representation, allowing the representatives delegated by HRC to take part in the activities of other higher education bodies and organizations. HRC delegates members to the Hungarian Accreditation Committee of Higher Education, to the Higher Education and Scientific Council, to the Hungarian Scholarship Board, to the Language Examination Accreditation Board and to other organizations active in the field of higher education and research.

HRC is member of the European University Association and the International Association of Universities.

Hungarian Higher Educations Institutions' Programmes in Foreign Languages¹

Come Study in Hungary!

About Hungarian higher education in general

Hungarian higher education has a long history, with the first university founded in 1367. Hungary's modern higher education system consisting of universities and colleges emerged in the 20th century. Hungarian diplomas are highly regarded worldwide. The programmes are of a high standard, yet tuition fees and living costs are quite reasonable.

Hungary's huge contribution to the world's intellectual heritage includes many Hungarian-educated Nobel Prize winners, famous Hungarian inventions including the ball-point pen (Biro), phosphorous matches (Irinyi), the electric train (Kandó) and the telephone exchange (Puskás), not to mention a long list of famous composers, painters and artists, including Zoltán Kodály, Béla Bartók, Victor Vasarely and Jenő Ormandy.

About Hungary

A small country with a great history, Hungary is located in the heart of Europe. The history of the Hungarian state goes back more than eleven centuries. Today Hungary has a population of 10 million in an area of 93,030 km².

Hungary is a parliamentary democracy. Hungary has been a full member of the European Union since 1st May 2004. Its capital Budapest is a metropolis with nearly two million inhabitants and it is considered by its many visitors as one of Europe's most beautiful cities. Other Hungarian cities are easily accessible from the capital by motorway or rail. Hungarians are famous for their hospitality and cuisine. Culture and sports are also important features of Hungarian life including first-class opera, theatres, museums, exhibitions and concerts as well as world tournaments in various sports. The largest pop-festival in Europe, 'Sziget', is held annually on one of the islands in the river Danube in Budapest.

Hungary is a market economy. In the last twenty years, Hungary has become an attractive country for investors. Numerous major international corporations have set up their regional centres in Hungary. In recent years, several Hungarian companies have achieved a leading role in the region.

Hungary's Higher education system

Higher education programmes in Hungary are offered by universities and colleges. In accordance with the common European higher education principles, Hungary introduced the three cycle degree structure in 2006 (BA/BSc, MA/MSc, and PhD/DLA). Within the framework of this system, BA/BSc programmes lead to a first degree. Master level programmes require a first degree as admission criterion. There are a few fields of tertiary education (e.g. law and medical

¹ Source and further information: The Campus Hungary Programme Office of the Balassi Institute: <http://www.bbmki.hu/>, e-mail: campushungary@bbi.hu ..

studies) where undivided long programmes remain the standard form of study (10 to 12 semesters) leading to a first degree which is however equivalent to an MA/MSc degree. All BA/BSc and MA/MSc degrees grant access to the labour market. In addition to full degree courses, HEIs offer shorter programmes too, such as summer universities and partial training.

The strength of Hungarian higher education lies in its PhD/DLA programmes. The doctoral degrees granted by Hungarian HEIs have a good international reputation. The pre-requisite to entering doctoral programmes is a MA/MSc degree.

	No. of credits	No. of semesters
Degree programmes		
BA/BSc	180 – 240 credits	6 – 8 semesters
MA/MSc	60 – 120 credits	2 – 4 semesters
Unified MA	300 – 360 credits	10 – 12 semesters
PhD/DLA	180 credits	6 semesters
Non-degree programmes		
Postgraduate specialisation programmes	60 – 120 credits	2 – 4 semesters
Summer university courses	Various	
Partial trainings	Various	
Higher level vocational training. Short cycle advanced vocational programmes	Various	2 – 4 semesters

The academic year is divided into 2 semesters including 14–15 weeks of lectures and seminars followed by a 6-week examination period.

Frequently Asked Questions

Are my credits gained in Hungary transferable?

As Hungary has been a member of the European Union since 2004, the Hungarian higher education institutions are part of the European Higher Education Area, and the credits and degrees gained in Hungary are transferable to other European institutions. The main objective of the introduction of the credit system was to harmonize different country's education systems and to facilitate student mobility. As a result of this harmonisation, higher education institutions in Europe will recognise your credits earned in a Hungarian institutions and vice versa.

What are the admission requirements? What qualifications do I need in order to be admitted to a higher education institution in Hungary?

According to the Higher Education Act, admission to Bachelor's degree (BA) programmes and unified, undivided, long-term Master's degree programmes is selective. The prerequisite of admission to any study programme in a higher education institution is either (a) the Hungarian secondary school leaving certificate, or (b) its foreign equivalent, or (c) a degree obtained in higher education accredited or recognized in Hungary. There are a few exceptions where practical examinations or aptitude tests are also required. Study programmes in the fields of music and arts require applicants to demonstrate their particular artistic abilities. If you wish to obtain a PhD degree in Hungary, the basic requirement is to hold a university degree which is equivalent to an MA/MSc degree.

Do I need a visa?

A) Students from the European Union and the European Economic Area

Students from the European Union, the European Economic Area and students who are citizens of countries listed in the 539/2001/EC council regulation Annex II. may travel to Hungary without a visa. They may apply directly for the residence permit upon arrival to Hungary if their expected stay exceeds the period of 90 days.

B) Foreign students from outside the European Union

Foreign students from outside the European Union and students who are not citizens of countries listed in the 539/2001/EC council regulation Annex II. are required to apply for a visa. The application may be submitted at the Hungarian diplomatic mission or consular post in the country of your permanent or habitual residence. If there is no such mission there, you can turn to any other Hungarian diplomatic mission or consular post. The process of issuing the visa may take one month.

Residence permit

Once you have a valid visa, you will also need a residence permit. For the residence permit application you need to submit the visa; a letter of acceptance from the Hungarian HEI you wish to attend; confirmation from the institution that the applicant is exempt from the payment of tuition fees or that he/she has already paid the tuition fees; a document certifying occupancy in Hungary; documents certifying subsistence in Hungary; and a certificate of health insurance. Note that the process may last for up to two months.

How much money do I need for living in Hungary?

In practice, you will need at least 100,000 HUF (320 EUR; 530 USD) per month in order to cover the costs of decent accommodation (about 50,000-60,000 HUF + utilities (190-230 EUR; 280-330 USD)), pay for public transport (one month in Budapest: 3,850 HUF (14 EUR; 21 USD)), and even go out occasionally. This amount should cover the costs of rent, food, clothing, personal hygiene, local transport, study materials, health insurance, telephone and other expenses – but not the tuition fee. There are small regional differences in the cost of living: Budapest is more expensive than other Hungarian cities.

How do I find accommodation?

You have several options to choose from when looking for public or private accommodation in Hungarian cities. You may stay in the student residence of the university you are attending, rent a room, share a flat, or rent a whole flat on your own. Since the rent may take up more than the half of your budget, your other financial options will depend greatly on your choice of accommodation. Note, however, that student residence places – meaning usually twin and more rarely single bedrooms – are limited in number.

Information on private places for rent can be found in the classified adverts in newspapers, on the Internet or on the notice boards of the university. In many institutions, the offices of international or foreign student affairs, or the centre for student services will help you find a convenient place to stay. Renting rooms and sharing flats is naturally cheaper.

Do I require health insurance?

Residents of EEA (European Economic Area) countries and Switzerland, who are entitled to health care of the national health service of their respective countries of residence, can receive health care free of charge in Hungary on the basis of the European Health Insurance Card.

Residents of countries which have signed bilateral agreements with Hungary are also entitled to receive health care free of charge in urgent cases. Participants of international student exchange programmes and scholarship holders in Hungary are entitled to free medical care as well.

Residents of third countries have to pay full price for the health care services in Hungary. Foreign residents studying in Hungary may obtain health insurance by signing agreement with National Health Insurance Fund (OEP) and paying 30% of the local minimum wage per month (23,400 HUF; approx. 90 EUR, 130 USD).

PhD- Duration: 6 semesters, Tuition fee: min. EUR 4,500/semester

Short Introduction

The goal of the Budapest University of Technology and Economics (BME) is to graduate professionals who are capable of high-level creative work, who can organize and supervise production and infrastructure, and who are qualified to perform scientific research, participate in technical development, solve engineering problems and implement solutions.

International Relations and Projects

BME is listed among the 5 elite national research universities ranked by the Hungarian Ministry of National Resources.

BME is proud of its 230-year tradition of excellence in engineering education. It has developed into one of the largest institutions of higher education in Hungary and it is one of Central Europe's most important research centers. Its results in the EU 7th R+D Framework Programme prove that BME was in fact the most successful participant of the Framework Programme, not just in Hungary but also among the 10 new European Union member state participants. The University considers scientific and applied research and development to be of equal importance not only to its educational activities, but also to economic and social development. BME has 16 knowledge centers and is a member of the most respected European and worldwide communities of higher education and engineering, such as EUA, AUF, CESAEER, IAUP, SEFI, TIME etc.

Approximately 1200 of the university's 24 000 students are from more than 50 different countries, in additions to educating engineers in English the university provides continuing training through:

undergraduate programs in engineering;
graduate programs in engineering specialization and in cognitive sciences;
Ph.D programs, guidance and instruction for scientific research fellows.

Pharmacy - Duration: 10+2 additional semester for MPH/D.Pharm, Tuition fee: USD 8,000/ year.

PhD- Duration: 6 semesters, Tuition fee: USD 6,500/year

Prep. programmes - Duration: 1-2 semesters, Tuition fee: USD 2,000-7,000/semester

Short Introduction

UD is a leading research university, educating close to 30,000 students in 14 faculties. Students can choose from over 60 majors, and upon graduation, from 25 doctoral schools.

International Relations and Projects

UD has international relations with about 300 universities in Europe and worldwide. Students can participate in the ERASMUS, ISEP and CEEPUS programmes, as well as bilateral exchange programmes to spend a semester or two abroad. New relations have just been established with some Chinese and Indian universities, and hopefully more will follow soon. From 2012 the University is also going to launch pre-master courses for international students, who seek admission to one of our master's programmes.

General Information

Eötvös Loránd University offers students a huge variety of programmes in a wide range of subjects at different levels of tertiary education. For detailed information on the entry requirements and tuition fees, please visit the programme-specific pages of the appropriate faculties. <http://www.elte.hu/en/degree-programmes>

Short Introduction

Eötvös Loránd University (ELTE), the leading research university of Hungary, serves the interests of high quality education and cutting edge research with the conviction that neither can exist without the other. Therefore all the educational programmes of ELTE implement the latest research achievements.

International Relations and Projects

ELTE is also one of Hungary's most international institutions, with more than 700 European partner universities and more than 65 from other continents. Profiting from such an international environment allows ELTE to design educational programmes of the highest academic standard with the most of our educational and industrial partners. This philosophy of co-operation assures that ELTE degrees are accepted around the globe, and ELTE graduates are in constant demand on the labour market. Eötvös Loránd University already provides more than 40 programmes in English and the number of joint degree programmes is growing each year. In 2010 and 2011 two ERASMUS Mundus master programmes (TEMA; DCGC) joined the colourful portfolio of our institution. For ERASMUS Mundus scholarships please visit our website.

As well as these various programmes, ELTE also organizes several summer universities. For further information please consult: in English: www.elte.hu/en; in Chinese: www.elte.hu/cn; in German www.elte.hu/de

PhD- Duration: 6 semesters, Tuition fee: EUR 2,300 - 3,125/semester

PhD in Business Administration- Duration: 4 semesters, Tuition fee: EUR 12,500

Short Introduction

The University of Pécs, the oldest university of Hungary (founded in 1367) is also one of the largest research universities in Hungary. The University has started international education 30 years ago and is pleased to have 2500 international students coming from more than 70 countries of the world. The University of Pécs offers 55 different degree programmes and preparatory courses in English and German for the growing number of foreign students that provide them with varied and exciting career opportunities around the world. The high quality laboratories and equipment give our students the opportunity to study and do research in the most modern environment. The university is located in a uniquely beautiful and culturally active city that received the prestigious European Capital of Culture title in 2010.

International Relations and Projects

The University of Pécs has 58 bilateral agreements in 25 countries. In the LLP/ERASMUS Programme, UP has 528 agreements with 355 universities located in 27 countries. The UP participates in 9 CEEPUS networks. Summer Universities: Blue Economy Summer School, Pécs Debate Academy, Simonyi Summer School, Hungarian Language and Culture Summer University

Intercultural Nursing postgraduate specialist training course

21 additional postgraduate intensive training courses in the field of health sciences

Ph.D. courses at seven different Doctoral Schools

General Information

General Medicine - Duration: 12 semesters, Tuition fee: USD 17,500/year;

Dentistry - Duration: 10 semesters, Tuition fee: Years 1-2: USD 17,500/year, in years 3, 4, 5: USD 21,100/year (includes material fee)

Pharmacy - Duration: 10 semesters, Tuition fee: USD 12,000/year

Health Sciences BSc programmes - Duration: 8 semesters, Tuition fee: Years 1-2: EUR 6200/year

Health Sciences MSc programmes – Duration: 3 semesters, Tuition fee: EUR 3950/semester
PhD - Duration: 6 semesters, Tuition fee: EUR 3,000/semester

Short Introduction

Founded in 1769, Semmelweis University is the oldest medical school in Hungary. It provides high quality programmes in medicine, dentistry, pharmacy, health sciences, and health management. Recognised as one of Europe's leading centres of medicine and health sciences, the University brings together about 3,100 international students from 78 nations around the world.

International Relations and Projects

The University maintains cooperative ties with over 150 higher education institutions from across Europe and stretching as far as North America and Asia. It takes part in numerous student and academic staff exchange programmes and is an active participant in the ERASMUS+ and Leonardo programmes. Many of its research groups collaborate with international institutions. The University is a member of several international organisations, including the International Association of Universities (IAU), the European University Association (EUA) and the Danube Rectors' Conference (DRC), the Association of Academic Health Centers International (AAHCI) and the Association of Medical Schools in Europe (AMSE).

General Medicine (MD), Dental Medicine (DM), Pharmacy (Dr.Pharm)

PhD in Educational Sciences, PhD in History, PhD in Linguistics, PhD in Literature, PhD in Philosophy, PhD in Economics, PhD in Law and Political Sciences, PhD in Clinical Medicine, PhD in Interdisciplinary Sciences (Health Sciences, Theoretical Medicine, Experimental Medicine), PhD in Multidisciplinary Medical Sciences, PhD in Theoretical Medicine, PhD in Pharmaceutical Sciences, PhD in Biology, PhD in Chemistry, PhD in Environmental Sciences, PhD in Geosciences, PhD in Physics, PhD in Mathematics, PhD in Computer Sciences

General Information

BA/BSc- Duration: 6 semesters (for a few programmes 6+1 semesters: BSc in Agricultural Engineering, BA in Business Administration and Management; or 5 semesters: English teaching Master's degree (Med) in teaching English), Tuition fee: EUR 1700-3300/semester

MA/MSc- Duration: 4 semesters (for LL.M. in International and European Trade and Investment Law: 2 semesters), Tuition fee: EUR 1000-3700/semester

Preparatory programmes- Duration: 2 semesters, Tuition fee: EUR 5600-7000/year

General Medicine (MD)- Duration: 12 semesters, Tuition fee: 15400 USD/year (years 1-5), 7700 USD (year 6)

General Medicine (MD in German, 4 semester course covering the first two years, degree: Zeugnis über die Ärztliche Vorprüfung)- Duration: 4 semesters, Tuition fee: 13200 EUR/year (years 1-2)

Dental Medicine- Duration: 10 semesters, Tuition fee: 15900 USD/year

Pharmacy- Duration: 10 semesters, Tuition fee: 9800 USD/year (year 1), 9300 USD/year (year 2-5)

PhD- Duration: 6 semesters, Tuition fee: EUR 2500-5000/semester

Short Introduction

The University of Szeged, which has a more than 430-year-long history, is one of the three Universities of National Excellence in Hungary, and it is also one of the largest higher-educational institutions in the country. According to higher education rankings the USz is constantly around the outstanding Nr. 500 position in the world. The USz comprises 12 faculties and represents nearly 25000 students including more than 2500 foreign students and 8000 employees.

International Relations and Projects

The educational, scientific and research activities of the University of Szeged are internationally recognized. The international perspective is reflected in the University's research and training activities through the composition of the multilingual teaching staff, the outstanding participation in student exchange programmes and various international research collaborations. The University has bilateral agreements with more than 90 partner institutions and over 400 Erasmus partner universities worldwide. The USz participates in 8 CEEPUS networks either as coordinator (1) or as a partner institution (7). Mobility awards of the University: E-Quality Award, International Cooperation Quality Award. In the Campus Hungary programme's five rounds so far the scholarship applications of the USz have achieved 80% success rate. The University of Szeged participates in other scholarship programmes too (Stipendium Hungaricum, Science Without Borders – Ciência sem Fronteiras) where partial and full degree programmes are provided for international students. The Institution has won and has been delivering altogether 43 projects in the 7th EU R&D Framework Programme and its continuation, the Horizon 2020 Programme, as well as 72 projects within the New Széchenyi Plan. The University is in cooperation with various acknowledged international institutional networks. Further information: www.u-szeged.hu

³ Some programmes are delivered in other languages than English (eg. French). Furthermore, language programme studies are available in the language of the taught culture.

PhD- Duration: 6 semesters (full-time) or 4 semesters (part-time), Tuition fee: for EU citizens GBP 2520 - 4200/academic year, for Non-EU citizens 5880-9800 GBP/academic year

Short Introduction

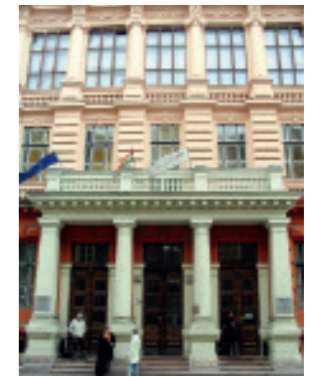

The predecessor of Budapest Business School, Hungary's market leading and largest college was the Academy of Commerce established in 1857. Highly qualified faculty guarantee elevated standards of professional education. Our efforts draw positive feedback since the Institution was awarded the Higher Education Quality Award in 2010, and since 2012 it is the holder of the ISO 9001:2009 certificate. In 2013 the BBS received the title of University of Applied Sciences.

International Relations and Projects

The Budapest Business School has wide-ranging international relations with more than 200 universities and colleges in 43 countries on five continents.

Types of international cooperation:

1. Strategic cooperation based on dual award programmes, joint studies, research and joint projects.
2. Relations based on mobility of ERASMUS and CEEPUS programmes.
3. Bilateral educational, research and scientific cooperation outside the ERASMUS and CEEPUS programmes. Further information: international@bgf.hu

Short Introduction

The Corvinus University of Budapest defines itself as a research university with an educational orientation. It operates on three campuses with seven faculties: the Faculty of Business Administration, the Faculty of Economics, the Faculty of Social Sciences, the Faculty of Public Administration, the Faculty of Food Science, the Faculty of Horticultural Science and the Faculty of Landscape Architecture.

International Relations and Projects

The University has agreements with more than 300 partner universities all over the world, this number is constantly growing. Most of them are ERASMUS partners (more than 200 universities within the European Union), there are also Central European partners (CEEPUS exchange) and bilateral agreements with highly regarded universities from all over the world. Our university is a member of the CEMS programme and PIM, since 1996 and 2002 respectively. We also have double degree programmes and joint degrees with several European universities. Short Introduction

SZIU, one of Hungary's largest higher education institutions, consists of seven different faculties for study and research. With parts of its history dating back over 200 years, SZIU blends Hungary's traditions and deep roots in agriculture with cutting-edge technology to meet the needs of its students in today's competitive labour markets.

International Relations and Projects

Szent István University has about one hundred research groups working in different scientific areas. Our priority is the production of healthy and safe food sources, which includes research in the fields of veterinary sciences, animal husbandry, crop production, horticulture, environmental safety and evaluation of natural resources. Research in complex renewable and alternative energies is also emphasized.

We have more than 400 international cooperation agreements in the fields of education and research. For 16 years we have been successfully running the Lifelong Learning ERASMUS and CEEPUS mobility programmes. SZIU is a member of the most respected European and worldwide communities for higher education, such as EUA, ICA (including IROICA, CASEE and AGRINATURA), EAEVE and VetNest. You can direct your questions to: international@szie.hu

Short Introduction

The University of West Hungary is a network university with a broad range of undergraduate and graduate programmes in the fields of arts, natural, technical, agricultural and social sciences, education, sports, visual arts and music. Based in Sopron, it has eight faculties and five doctoral schools in four towns (Sopron, Mosonmagyaróvár, Győr, Szombathely) in the Western Transdanubian region.

International Relations and Projects

The University of West Hungary has connections with more than 260 foreign higher educational and research institutions. It has 230 partners in Europe and 30 on other continents. We take part in the Erasmus+ and CEEPUS programs. The agreements, in accordance with the Bologna process, make it possible for our students to acquire knowledge abroad, learn about the culture of other countries and improve their command of foreign languages. Our academic and administrative staff can also make use of the mobility grants and we are regularly hosting exchange students and staff from our partner institutions.

Short Introduction

Óbuda University is a dynamic, thriving institution of higher education in Budapest, Hungary. Based on its 135 years tradition of postsecondary and undergraduate education in engineering and economics, it achieved university status in 2010.

The comprehensive academic program was developed with emphasis on competitive, flexible and quality education, scientific research and development. A wide range of educational and research programs in technology, informatics and economics are offered at six faculties and one centre in modern facilities and in a stimulating environment. Students can select from 13 undergraduate, nine graduate programs and three doctoral schools.

Óbuda University currently has approximately 13,000 enrolled students who pursue their studies in full-time, part time and distance learning programs in Hungarian, English and also partly in German language.

International Relations and Projects

Óbuda University currently cooperates with almost 300 partner institutions from 40 countries around the globe. These agreements cover scientific, research, educational and course development co-operations, joint ventures for organizing conferences and publishing scientific journals as well as faculty and student exchanges. During their studies our students can take courses abroad in order to get insight to another culture, learn different perspectives, gain foreign experiences, expand their professional and language knowledge and make new friends.

MA- Duration: 4 semesters, Tuition fee for EU citizens 1,500 EUR/semester; Tuition fee for non-EU citizens 3,200 EUR/semester. For Cinematography MA program the tuition fee is 8,250 EUR/semester

Short Introduction

With a constantly growing number of students, education venues and campuses, and a diverse range of programmes, today BKF University of Applied Sciences is the biggest private University in Hungary. BKF offers bachelor and master programs in the field of communication, business, tourism and arts. The institution has been present in the Hungarian higher education scene for the past 13 years. Its high quality, practical activities strongly valued by the labor market have been acknowledged by the Superbrands award in 2011 and 2012, too.

International Relations and Projects

BKF maintains active collaboration with 73 partner institutions in 25 countries. Within the framework of the ERASMUS exchange program BKF students may receive grants both for study abroad and foreign internship programs. BKF students successfully take part in international student competitions organized by European universities. Furthermore they are also welcome at summer universities abroad.

General Information

Undergraduate duration: 6 semesters, Tuition fee: 1800-2300 USD /semester

Master duration: 4 semesters, Tuition fee: 1900-2800 USD /semester

Short Introduction

Eszterházy Károly College (EKC) is one of the oldest facilities in Hungary serving higher educational purposes. EKC is one of the most popular colleges in North East Hungary, where tradition meets quality education (bachelor, master, doctoral level) and innovation in a safe and modern learning environment with research centres, extensive international networks, ESL and mobility services.

Scientific Research, International Relations and Projects

There is a vibrant research life in the College. Internationally acclaimed results have been achieved in the field of history, education and teacher training, ICT, environmental protection, renewable energy sources, botany, mathematics, linguistics, fine arts, music and sports. The institution is proud to have several specialisations unique in Hungary, such as Equestrian Tourism.

The College maintains about 100 ERASMUS+ partners, three CEEPUS networks, and about 20 bilateral agreements with universities in US, Egypt, Malaysia, Indonesia, China, Russia, and Ukraine. Our international students are accommodated in one of the dormitories with a beautiful view to the city of Eger. Students can enjoy a wide range of services at the College. The Central Library has several sub units in a numerous study fields, wireless Internet is provided in all educational buildings. EKC has its own TV station broadcasting programmes prepared by our students. Regular events organized at the College include the Freshmen's Ball, the Researchers' Night and the eFeN College Days. The College Sports Club provides various sports facilities and fitness, wellness services.

General Information

BSc/BA – Duration: 6-7 semesters, Tuition fee: EUR 2000- 4000/semester
MSc/MA – Duration: 4 semesters, Tuition fee: EUR 2500-4000/semester

Short Introduction, International Relations and Projects

The five faculties of the University of Pannonia offer a wide scale of educational programs. The Georgikon Faculty (Est. 1797) was the first institution of agricultural higher education in Europe. Besides the traditional agricultural sciences, a great emphasis is laid on modern ecological considerations. The Faculty of Engineering (Est. 1949) offers graduate and research programs in all traditional fields of engineering including chemical engineering, mechanical engineering, environmental engineering. The bachelor's and master's programs of the Faculty of Modern Philology and Social Sciences (Est. 1990) cover the fields of education, social sciences and language studies. The Faculty of Information Technology (Est. 2003) offers study programs in IT and advanced technologies: business information technology, engineering information technology, software information technology, electric engineering, logistics engineering. The Faculty of Business and Economics (Est. 2003) offers nearly 20 bachelor's and master's programs in three fields: business economics, economics and technical management.

Scientific Research

The organizational structure of the University of Pannonia is based on the synergy between the educational, research and R&D activities. This methodology is also applied in the long-term development cooperation processes with other universities and industrial partners. The University of Pannonia has established joint research partnerships with several prestigious international institutions and project based R&D activities with numerous international companies, which guarantees solid support of the accomplishment of long-term professional and economic objectives.

MA in Marketing
MA in Infrastructure-Civil Engineering

General Information

Duration: Marketing: 4 semesters;
Infrastructure-Civil Engineering: 3 semesters
Tuition fee: EUR 1,200 – 1,500/semester

Short Introduction

The University is the primary server of the regional economy and public services sector. It provides education, research in the fields of engineering, IT, pedagogy, economics, int. relations, law and administration, social work, health, and arts. Its activities encompass training at all levels (BSc, MSc, PhD).

International Relations and Projects

The professors and departments of the university have established a working educational and research co-operation with more than 40 higher educational and 70 industrial partners in Hungary. The university has institutional-level connections with more than 120 European institutions of higher education, and with numerous international partnerships outside Europe. Most of these programmes are educational partnerships and include professor and student exchange programmes. These are mainly financed through EU projects such as ERASMUS, CEEPUS and FP7/HORIZON2020. The university considers it a priority to expand its international education offering and to create an opportunity for foreign students to participate in partial or full degree courses in a foreign language at Széchenyi István University. General Information

Duration of bachelor programs: 6-7 semesters,
Duration of master programs: 4 semesters
Tuition fee for the bachelor degree programs: EUR 3,550/academic year
Tuition fee for the master degree programs: EUR 4,000/academic year

Short Introduction

The College of Dunaújváros, located in the geographical centre of Hungary, plays a leading role in the higher education of its region, and offers a wide range of disciplines to the students from media and business to engineering studies. The language of education for our international students is English. We provide our students a competitive, practice-oriented education and the acquisition of the focused skills needed for building their careers when entering the job market.

International Relations and Projects

The College of Dunaújváros participates actively in ERASMUS student and lecturer exchange programme with more than 30 European partner universities and colleges from 15 countries. Due to our participation in Science Without Borders scholarship program we accept students of Brazilian universities for part-time studies in English language in our campus, as well. We offer a 1-year-long preparatory course to those new student applicants whose English language knowledge needs to be improved before starting their bachelor studies.

Edutus College

Programmes in English

Preparatory Course for BA Business Studies for Foreigners

General Information

Duration: 2 semesters, Tuition fee: EUR 3,900/semester (incl. full board)

Short Introduction

Edutus College was founded in 1992. Modern courses and curricula, experienced instructors, up-to-date technology and advanced IT infrastructure, practice-oriented education, enterprise projects carried out in small groups and vocational training both within and outside of the country help to maintain the high standard of education.

International Relations and Projects

Edutus College has been extending its international relations since its foundation. It has partners all over in Europe. 'International Week' is organized each spring when foreign professors visit for a week to give students lectures on different topics (Marketing, Management, etc.). Foreign students are also welcome. Edutus College participates in the LLP ERASMUS exchange programme since 1997 and is pleased to receive students within the framework of this program. Programmes in English

We offer bachelor's programmes in eight different fields: management, financial management, arts management, diplomacy, tourism, psychology, marketing, information systems. We offer four postgraduate MSc programmes: International Business, Human Resource Management, Financial Management, Marketing Management. All BSc and MSc programmes lead to a degree conferred by The University of Buckingham, UK.

General Information

BSc- Duration: 6 semesters, Tuition fee: EUR 3,300/semester
MSc- Duration: 12 months, Tuition fee: EUR 4,350/semester

Short Introduction

Being a private international university, IBS quickly adapts to the needs of a constantly changing international market and modifies its academic programmes accordingly. In cooperation with our strategic partner, The University of Buckingham, and other European partners we produce flexible, motivated business people who perform efficiently and think flexibly in the challenging environment of global business.

International Relations and Projects

IBS attracts students from 75 countries on 5 continents and professors from various countries of the world. In addition to our ERASMUS co-operations (72 ERASMUS partner institutions in 19 countries), we are building an international network of academic partnerships focusing on staff development, sharing know-how in teaching methodology and curriculum development. Besides Master's and Bachelor's programmes, IBS offers a 4-week Summer School programme and an Intensive English Language Programme including 600 hours of English. Short Introduction

Károly Róbert College is one of the determinant higher educational institutions in the northeast region of Hungary. We are committed to increasing excellence in up-to-date theoretical and practice-orientated teaching linked to innovation and research, in order to provide our students with marketable degrees in various academic fields.

International Relations and Projects

One of the key objectives of Károly Róbert College is internationalisation in the strategic educational structure of the institution with a wide and continuously increasing network of international relations with partners from and outside the EU. Taking part in international projects enables us to widen the network of cooperation for innovation and good practices by also contributing to the promotion of European Higher Education.

We have been involved in several LLP Programmes: Ceepus, Erasmus, Erasmus IP (both coordinator and partner), Leonardo da Vinci and Jean Monnet programmes. On the basis of the institution's activity profile and networking experience, Károly Róbert College is committed to keep up its level of international activity by participating in international projects within the framework of the Erasmus+ Programme for the period 2014-2020 to enhance the opportunities for cooperation and mobility with both Programme and Partner Countries.

National University of Public Service

Short Introduction

The National University of Public Service (NUPS) is a higher educational institute offering unique trainings in the fields of public administration, law enforcement, military and international and European studies. NUPS's integrated structure and comprehensive portfolio reflects the growing complexity of social, economic, and security problems that the public sector faces. Trainings cover BA, MA, PhD level education, continuing education for public-, military-, and law enforcement officers, as well as special leadership programs for executives in public service. The University serves as a strategic think tank of the national government, conducting research on various fields of state sciences.

NUPS Faculty of Public Administration

The Faculty provides "Public Administration Manager" BA program, and "Public Administration" MA program. The Doctoral School of Public Administration Sciences was established in 2013. Currently, it is the only doctoral school specializing in the field of public administration in Hungary with the following research areas: Public law and public administration, State and society, Public management, State and economics, Public administration in international and European context, Human resources.

NUPS Faculty of Law Enforcement

The Faculty provides "Law Enforcement Administration" BA, "Criminal Administration" BA and "Disaster Management" BA programs with 16 specialisations, and a "Law enforcement Manager" MA program with 5 specialisations. Students at the Faculty are offered three-term specialised further training courses too. The establishment of a Doctoral School of Police Science is in progress.

NUPS Faculty of Military Sciences and Officer Training

The Faculty provides "Military Leadership" BSc, "Military Logistics" BSc, "Military Maintenance" BSc programs for cadets and "Military Leadership" MSc, "Logistics in Military Operations" MSc, "Military Maintenance" MSc programs at graduate level.

The Doctoral School of Military Sciences focuses on the questions of military science regarding the activities of the defence sphere. This includes a wide spectrum of research fields from military history through security theories, defence administration to national security.

The Doctoral School of Military Engineering focuses on fields of research that are specifically related to the military application of engineering. This includes the training and preparation for scientific research in various related fields ranging from basic and applied researches and development, through technology and technology-transfer to technological innovation.

Programmes in English

NUPS highlighted the need to internationalize its programs in order to boost international cooperation possibilities and foster diversity.

English language degree programs on MA and PhD level are available for those interested in developing an international or European career in public service on the field of security policy, cyber security, human rights, minority rights, EU legislation or funding.

The recently introduced "**Academy of Diplomacy**" special certificate program is designed to foster career advancement via an intensive study and research semester in the heart of Europe.

The multinational community of international students at NUPS guarantee an inspiring environment suitable for exchange ideas from all around the world.

International Relations and Projects

NUPS has agreements from universities all over the world, mainly aiming at ERASMUS mobility, but the university also focuses on international extracurricular events such as **Global Minority Rights Summer School, International Military Academic Forum, FOURLOG or MAGLITE**

College of Nyíregyháza

Type of Programmes and Degrees in Hungarian

Bachelor's degree, Master's degree, Master's level further specialization, Higher level vocational training, Adult training and education

Short Introduction, International Relations

The major objective of the regional knowledge centre programme at the College of Nyíregyháza is the enhancement of the region's role as well as economic and innovative effectiveness. Therefore our educational offerings comply with the R&D and innovative activities. Three complex programmes that show synergies are in the course of implementation: (1) Knowledge Creating Opportunities – an academic programme, (2) Green Region – an R&D programme, (3) Dynamic Spatial Network – a service programme. The R&D priorities of the institution relate to food industry, vehicle mechanical engineering, agricultural production, use of renewable energy sources, logistics, bio monitoring, environmental analysis, informatics, issues of regional economy, tourism, liberal arts and visual culture, pedagogy and psychology. The East and Central European Research Centre of the college carry out research concerning Russia, East and Central Europe as well as carrying out educational tasks. The College of Nyíregyháza has 54 bilateral agreements on ERASMUS and CEEPUS Mobility Programmes, 43 bilateral agreements on students and staff mobility and on Cross Border Cooperation Programmes with 23 countries.

Short Introduction

Kecskemét College is a higher education institution of three faculties (Faculties of: Technical Studies, Teacher Training and Horticulture). The aim of the College is to meet the requirements of a modern European higher education institution.

As a pilot project we run dual-training in the field of mechanical and vehicle engineering, with a strong industrial background. Laboratories for languages, IT, Technology and ecology, studios, a library, student residential homes and cultural services make the learning environment pleasant. Kecskemét College operates according to ISO 9001:2008 quality assurance system regulations.

International Relations and Projects

Kecskemét College cooperates with more than 51 European universities, actively promotes various international exchange programmes with special regard to ERASMUS+ KA1 and KA2, CEEPUS programmes, and takes part in different projects and networks.

In addition, every year we organise scientific conferences with international participants. www.kefo.hu/english, international.office@rh.kefo.hu

Type of Programmes and Degrees in Hungarian

Bachelor's degree, Master's degree, PhD programmes, Master's level further specialization, Higher level vocational training, Adult training and education,

Short Introduction

The Károli Gáspár University of the Reformed Church in Hungary provides education in the field of humanities, law and political sciences, theology and teacher training. Our prime aims and tasks are to reintegrate Hungary back into the cultural system which means and maintains Europe itself, and to build up and meaningfully preserve our traditional and new relations throughout the world. Being a Christian university, we strive to maintain moral and ethical standards in 21st century modern higher education. Besides our German and English study programmes, the university established the tutoring of rare languages, such as Japanese and Dutch. Beyond the language, literature and history training, our psychology department with its clinical and practice-oriented training aims to provide an overall knowledge of the discipline and to develop special skills in the fields of mental health, communication science, child psychology, health-care and clinical psychology. We wish to educate and teach our students to help them develop into multi-faceted, tolerant civilians with wide horizons.

King Sigismund College

Type of Programmes and Degrees in Hungarian
BA, MA

Short Introduction, International relations

King Sigismund Business School – or ZSKF in Hungarian – was established in 2000 as a response to the increased demand for quality higher education and training created by European integration and national modernization; also as a response to a governmental proposal based on labour market research. ZSKF constructed its degree programmes based on the European Union-supported concept of “lifelong learning” and along four academic pillars (humanities, economics, information technology, social sciences). Degrees are available in 11 Bachelor's programmes and 6 Master's programmes, all of which are based on constant observation of the rapidly-changing needs of the labour market. We utilize both innovative and traditional methods our programmes.

Over the past few years ZSKF has tripled its number of international partnerships with cooperating higher education institutions. As a result our students can utilize the ERASMUS programme to study in (primarily) other European countries for one or two semesters. We also have partner institutions in the Ukraine, Russia and Vietnam.

We organize competence-based training for our students through our Career and Alumni Centre. Trainers and presenters from the private sector prepare students in the areas of communications, conflict management and personal development to better equip our students to face the challenges they may encounter in the labour market.

Programmes in English

Dancer BA, majoring in ballet or in modern dance.

Type of Programmes and Degrees in Hungarian

Bachelor's degree, Master's degree,

Short Introduction

The HDA keeps regular contacts with its European partner institutions (from Moscow to London, from Helsinki to Lisbon) as well as global partners. Its annual international summer course takes place in August and is visited by dance students from all over the world. Hungarian students take part in courses and competitions abroad on a regular basis. International dance festivals – inviting 10 to 12 schools – are held regularly. International students become active participants of HDA's performances and tours.

International Relations

In the framework of the ERASMUS programme we cooperate with higher education institutions from the following countries: Germany, Austria, Norway, Denmark, Spain, Belgium and Romania. We organize student and staff exchanges with partner institutions in these countries. The AVCC and the Katholische Stiftungsfachhochschule München run a common training programme. We are a member of the GERFEC-, and COMENI-US Association. Our college has a work group, which deals with building relations with cross-border Hungarian communities. We organize ERASMUS training programmes to several institutions founded by Csaba Böjte in Romania.

Debrecen University of Reformed Theology

Type of Programmes and Degrees in Hungarian

Bachelor degree, Master degree, PhD programmes, Master's level further specialization, Higher level vocational training, Adult training and education

Short Introduction, International relations

The university, strengthened by merging with the Ferenc Kölcsey Teacher Training College of the Reformed Church, on 1st September 2011, is a higher education institution of the Trans-Tisza Synod of the Hungarian Reformed Church. Our university offers a wide range of educational programmes taught by a highly professional teaching and research staff. We train ministers, teachers of religion, as well as teachers and communication specialists. General, undivided MA programmes are offered in theology, with a specialization in ministry as well. We also give training in pastoral care and management in our MA programmes. Our BA programmes include degrees in teacher training, communication and media sciences, and for computing librarians, church organists, assistants in Christian education and ministry. The university also offers courses and degrees in higher professional and vocational training, and adult training. We provide further education for teachers as well, with a special emphasis on the support of the professional development of Hungarian teachers living beyond the borders of Hungary. Our university is part of the ERASMUS, CEEPUS and KASTALIA networks and is actively seeking partnerships and joint programmes with other institutes of higher education abroad.

MA in Animation, Photography and Vehicle Design

Type of Programmes and Degrees in Hungarian

Bachelor's degree, Master's degree, DLA,
Master's level further specialization

Short Introduction and International Relations

Moholy-Nagy University of Art and Design Budapest (MOME) is one of the most significant European institutions of visual culture, thanks to its traditions and intellectual background. In its effort to visualize its professional concepts, MOME combines its own character and traditions with common social values and the most up-to-date trends. Its educational structure comprises architecture, design, media and theory. MOME's definite ambition is to further broaden its international relations. It welcomes every professional co-operation which inspires its educational and artistic work. There are three degree courses in English (Animation, Photography and Vehicle Design) which enable MOME to exist on a higher level of European education. On the one hand MOME is a university that educates professional designers and on the other hand, is an intellectual workshop with the aim of setting up creative processes in order to enhance design consciousness in Hungary.

Programmes in English

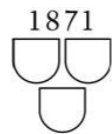

Several music majors at BA and MA levels, as well as part-time music courses (classical / jazz instruments).

Type of Programmes and Degrees in Hungarian

Bachelor's degree, Master's degree, DLA/PhD, Master's level further specialization, Adult training and education

Short Introduction

The Franz Liszt Academy of Music trains students in classical, sacred, ethnic and jazz music, musicology and music history. As the Liszt Academy has adopted the Bologna system, the three levels of training are BA, MA, and DLA/PhD. The Academy has always taken pride in meeting the standards set by its founders and revered professors; this has resulted in providing the students with a special and demanding Hungarian teaching method. Guidance is given by excellent professors, who are renowned performing artists, scholars, visiting professors and jury members at other illustrious universities, jury members of international competitions, and for whom teaching is a passion.

English Programmes

MA in Creativity & Fine Art.
PhD in Liberal Arts.

Type of Programmes and Degrees in Hungarian

Bachelor's degree, Master's degree, PhD/DLA programmes

Short Introduction and International Relations

The Hungarian University of Fine Arts has been participating in the ERASMUS Mobility Programme and ERASMUS Intensive Projects as a chartered institution since 1999. HUFA currently has over 40 partner institutions with over 40 students travelling abroad on exchange and a nearly equal number of incoming international students. We also have a very active teaching and staff mobility programme within the ERASMUS framework. In addition, we also have a number of institutions with whom the university maintains a non-ERASMUS partnership (eg. Repin State Academy Institute of Fine Arts in St. Petersburg). Each year, various exhibitions and events take place as a result of international cooperation. At present, HUFA has no degree programme in English, as all theoretical courses, which comprise an integral component of the study program, are taught in Hungarian. Exchange and guest students can, however, take practical courses (such as Painting Studio Work, for example) with consultation in English. While exchange students are not required to pay tuition, the cost of practical training at HUFA for guest students is HUF 240,000 per semester. For more information on the eligibility criteria and application/admission process for guest students please refer to our webpage: <http://www.mke.hu/en/english/index>. For further information please contact International Coordinator Zsófia Rudnay at foreign@mke.hu.

Higher education institutions in neighbouring countries providing courses in Hungarian

Ferenc Rákóczi II. Transcarpathian Hungarian Institute

Ukraine, Transcarpathia
90202 Beregovo (Beregszász), Kossuth tér 6.
+380 31 41 4 29 68
foiskola@kmf.uz.ua
www.kmf.uz.ua

Short Introduction

This institution is a state-recognised Ukrainian higher education institution of accredited degree III founded and maintained by the Foundation for the Transcarpathian Hungarian College (FTHC). The Foundation was established by the Hungarian Cultural Association of Transcarpathia, the Transcarpathian Association of Hungarian Pedagogues, the Transcarpathian Reformed Church, and the Local Government of the Town of Beregovo (Beregszász). The institution has been operating as an independent, officially registered higher education institution with a state operating permit since 1996.

Transcarpathian students may pursue studies in 6 departments, 10 programmes in the Institute.

The institution has not yet been granted any support from the Ukrainian state. It is professionally controlled by the Ministry of Education and Science of Ukraine. A considerable part of the financial support required for the maintenance of the institution is provided to FTHC by the Ministry of Education of the mother-country, or is completed by means of application.

Hungarian University of Transylvania

Romania, 400112 Cluj-Napoca (Kolozsvár)
Matei Corvin (Mátyás király) u. 4.
+40 264 439 266
office@sapientia.ro, www.sapientia.ro

Short Introduction

The Sapientia – Hungarian University of Transylvania (Sapientia HUT), one of the Romanian higher education institutions, was founded in 2001. Its establishment was supported by the Hungarian state. The University is operating in three Transylvanian towns (Miercurea Ciuc/CsíkSZereda, Targu Mures/Marosvásárhely, and Cluj-Napoca/Kolozsvár). The University provides, in the academic year of 2010/2011, courses in Hungarian in 22 programmes in the following disciplines of science: engineering, political sciences, social sciences, economics, humanities, and arts, under the direction of 260 domestic instructors and foreign guest professors.

Partium Christian University

Romania, 410209 Oradea (Nagyvárad)
Primariei (Városváza) u. 36.
+40-259-418244
partium@partium.ro, www.partium.ro

Short Introduction

The Partium Christian University (PCU) is an integral part of the system of Transylvanian/Partium Hungarian-language higher education; it is the first independent, accredited university established, after the changes in 1989, by Hungarians living in Romania.

Thirteen undergraduate courses and five graduate courses are operated by three faculties of the University (the Faculty of Humanities, the Faculty of Economics, and the Faculty of Arts). Since its foundation, the University has been recognised in the national higher education (university) system, and has also established close and effective cooperation with Hungarian universities through bilateral agreements.

J. Selye University

Slovakia, 945 01 Komárno
Bratislavská cesta 3322
+421 35 3260848
info@selyeuni.sk, www.selyeuni.sk

Type of Programmes and Degrees:

Bachelor's degree, Master's degree, PhD programmes, Adult training and education

Short Introduction

J. Selye University, the youngest higher education institution of Slovakia, is the only independent state-funded higher education institution in Slovakia providing courses in Hungarian. The main purpose of the University is to provide high-level training for primary and secondary school teachers, and theologians as well as training for professionals in fields including finance, IT, and marketing. J. Selye University has a mission to provide native-language education, and to ensure quality training for teachers and educators, theologians and economists working in nurseries, primary and secondary schools with instruction in Hungarian language.
